# USF EDUCATION ABROAD

## Dear USF Student,

Traveling internationally this year? USF System International Travel Authority [Policy #10-507](#) requires that all students register their student related international travel with the USF World Education Abroad Office or with USF Health. Visit their sites to learn about each registration processes.

Student-related travel is any international activity  tied to an individual's status as an active USF student, regardless of the source of funding for the travel. This may include international travel related to a conference, a student organization, program requirement, elective, research project, service-learning project or study abroad. But, it does not include leisure travel!

Once you are registered, you will be enrolled in USF's mandatory International Health and Evacuation Coverage offered by UnitedHealthcare Global, a leading industry provider. Insurance coverage is provided while abroad. You will automatically benefit from USF World's 24/7 International Assistance Line and International Risk and Security Office services. A nominal one-time charge is assessed for security and safety monitoring.

To learn more, contact USF World Education Abroad Office at 813-974-5474 or email [educationabroad@usf.edu](mailto:educationabroad@usf.edu)

Sincerely,

*Dr. Roger Brindley*

USF System Vice President, USF World

## GLOBAL GRANT SCHOLARSHIPS SUPPLEMENT

The Rotary Foundation funds scholarships with global grants and district grants. This supplement focuses on global grant scholarships. For information about district grant scholarships, clubs should contact their district Rotary Foundation committee.

Through global grants, Rotarians can support future leaders in fields related to the areas of focus:

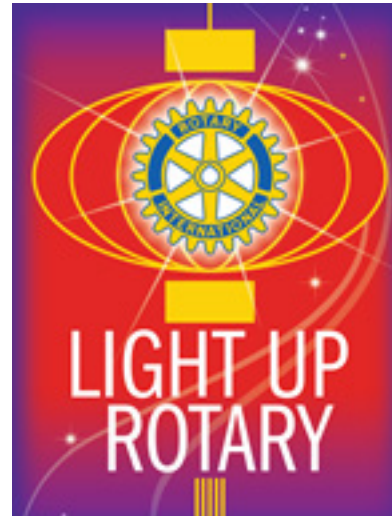

- Peace and conflict prevention/ resolution
- Disease prevention and treatment
- Water and sanitation
- Maternal and child health
- Basic education and literacy
- Economic and community development

Global grant scholarships fund graduate-level coursework or research for one to four academic years. A key feature of global grants is the partnership between the district or club in the study location (host sponsor) and the district or club in the scholar's home country (international sponsor). Both sponsors must be qualified before they can submit an application.

### **Semester Study**

Fall and spring full semester programs allow students to truly integrate into their host culture and attend institutes, colleges, and universities overseas with other foreign and local students. Your living options and program prices range from program to program as does the field of study available. In most cases, you may take courses from a range of majors. A semester abroad is an enriching experience allowing you to acculturate to your host country. It allows you the opportunity to get to know the people and culture and experience your discipline from a different perspective--one that can not only compliment your own understanding, but one you can bring back with you and use to supplement your USF education.

### **Summer Programs**

USF summer programs range in length from 2 to 10 weeks during the May to August period. Program dates vary, but each are designed to maximize exposure to host cultures while providing an intensive academic study. In most cases, some lectures will be conducted on campus before and after the trip, as well as exams and projects with the faculty director on-site in their host country. In addition to USF faculty led programs, Education Abroad is partnered with many international partner institutes and universities that host our students for focused study. There is also the potential for experiential learning through service, teaching, and internships.

### **Short-Term Programs**

The Education Abroad Office has arranged spring break and intersession short programs designed for students with limited travel time. These programs are highly intensive in nature and rely on a good deal of course work to be completed on campus prior to departure. This work is then brought to life through on-site research and firsthand experiences.
